

TRAINING INFORMATION

Thank you for your interest in our training services! We strive to offer the industry's best instrument training through a variety of hands-on training options. Teledyne API's expert, instructor-led, training provides you with an interactive and engaging classroom, or webinar-based, experience blending presentations, demonstrations, hands-on practice, and valuable Q&A sessions.

TRAINING OFFERINGS AND PRICING

Basic Instrument Training (Factory):

This weeklong course is typically for those who are new to Teledyne API instruments, and focuses on theory of operation, menu structure, maintenance, and calibrations. You will learn how each of our base model T-Series instruments work. Five (5) full days of in-person training, with each day consisting of theory of operation review, menu structure, maintenance, and calibration overview, for that day's respective instrument(s).

- **Dates: October 2023**

9am to 4 pm	Instrument Type
Monday	O3/Particulate (T400/T640)
Tuesday	Cal/ZAG (T700/T701)
Wednesday	NOx (T200)
Thursday	CO (T300)
Friday	SOx (T100)

Basic Instrument Training (Virtual):

Our webinar-based, virtual training is a cost-effective, and efficient way, to improve your knowledge of TAPI instrumentation. Virtual trainings are hosted, using either Zoom or Microsoft Teams, and include a combination of PowerPoint presentations, live video demonstrations, and Q&A with TAPI technical experts. This is a 5-day virtual training course, consisting of 4hrs, per day, of instruction. There is no limit to the number of attendees; however, only five (5) training certificates will be issued per training session.

- **Dates: Feb/Mar 2023**

10am to 2pm PST	Instrument Type
Monday	O3/Particulate (T400/T640)
Tuesday	Cal/ZAG (T700/T701)

Wednesday	NO _x (T200)
Thursday	CO (T300)
Friday	SO _x (T100)

Advanced AQMS Instrument Training (Factory):

This course encompasses advanced training on all our base model T Series instruments (i.e., T100, T200, T300, T400, T700 and T640). This in-person course is typically designed for those with Teledyne API instrument experience, and focuses on in-depth theory of operation, pneumatic and electronic troubleshooting, with hands-on labs that focus on common failures, and the use of APICOM/DAS/Ethernet/NumaView™ Remote. (Choose up to five (5) days). Basic Instrument Training is a prerequisite for this course.

- **Dates: April, May, September, November 2023**

9am to 4 pm	Instrument Type
Monday	O ₃ /Particulate (T400/T640)
Tuesday	Cal/ZAG (T700/T701)
Wednesday	NO _x (T200)
Thursday	CO (T300)
Friday	SO _x (T100)

Advanced CEMS Instrument Training (Factory):

This course encompasses advanced training on CEMS based model T Series instruments (i.e., T100/H, T200/M/H, T300/M). This in-person course is typically for those with Teledyne API instrument experience and focuses on in-depth theory of operation, pneumatic and electronic troubleshooting, with hands-on labs that focus on common failures, and the use of APICOM/DAS/Ethernet/NumaView™ Remote. (Choose up to three (3) days). Our Basic Instrument Training is a prerequisite for this course.

- **Dates: March, June, August, December 2023**

9am to 4 pm	Instrument Type
Tuesday	NO _x (T200/T200M/T200H)
Wednesday	CO (T300/T300M)
Thursday	SO _x (T100/T100H)

Customized Instrument Training (Virtual):

This live, webinar-based, training is offered in 4-hour increments, using your choice of either Zoom or Microsoft Teams. Virtual trainings include a combination of PowerPoint presentations, live video demonstrations, and Q&A with TAPI technical experts. Customized content for TAPI instruments and applications is utilized, based on your specific topics of interest. There is no limit to the number of attendees; however, only five (5) training certificates will be issued per training session. For more information, available dates, and/or quotes, please contact us at +1 858-657-9800, or by email at API-Training@teledyne.com.

Customized Instrument Training (Factory/Customer Site):

This in-person training course is tailored to your specific instrument and application needs, and can be held at our facility in San Diego, California, or at your facility. For more information, available dates, and/or quotes, please contact us at +1 858-657-9800, or by email at API-Training@teledyne.com.

PRICING

Pricing varies, depending on class(es) selected. To purchase training for yourself, and/or other people in your company, please proceed with one of the registration options below.

- **U.S. participants:** [click here](#) to purchase training through our online store with a credit card. You will receive confirmation of your registration, as well as additional details, prior to your selected class date(s).
- **Outside U.S. participants:** please contact us directly at +1 858-657-9800, or API-Sales@teledyne.com, to complete the registration/purchase of your selected class(es).

REGISTRATION REQUIREMENTS

Early registration for Basic and Advanced trainings is strongly advised, as there is limited seating, and classes fill up quickly. **To secure your registration, please ensure that we receive full payment (Visa/MasterCard, check, or wire transfer) no less than 30 days prior to the first day of class.**

You are required to provide the full legal name (including middle name, please - no nicknames) of each attendee. Additional information may be required, such as personal address, and company information, for security screening purposes. All in-person attendees will be asked to present a valid, and current, Photo ID/Passport when they arrive at the Teledyne API facility.

Please review our [Training Cancellation Policy](#) carefully, as well as our [Terms and Conditions](#).

LOCATION AND HOURS

In-Person training, at our factory, is held at Teledyne API, located at 9970 Carroll Canyon Road, San Diego, California 92131 USA.

FAQ

What time does the training start? Training starts sharp at 9am, every day. On your first day, please arrive a little earlier, for initial registration/sign-in purposes.

Upon completion of the course will I receive a certificate? Yes, for all in-house training, certificates will be provided on the last day of the course. For virtual training, the certificates will be mailed/emailed appropriately, following the completion of the course.

Will lunch be served? Yes, lunch will be served every day, and snacks/drinks are provided as well. If you have dietary restrictions/requirements, please let us know prior to your arrival, so that appropriate accommodations can be made.

Will there be breaks during the day? Yes, there will be frequent breaks throughout the day, including a one (1) hour lunch break.

Is there a limit of how many people can attend a class? Yes, to ensure an adequate learning experience, we cap the classes at fifteen (15) people, per day, at the factory trainings. Virtual training has no limit, though careful consideration should be taken by the customer, as to ensure a productive learning environment.

What if I can't attend my session due to unforeseen circumstances: Things happen, and we understand, so we will work with you, to the best of our ability, and attempt to reschedule you for a future class if possible. Please refer to our cancellation policy for additional details.

I need to confirm my training - who do I contact? Please reach out to API-Training@teledyne.com, or call +1 858-657-9800, if you require additional information.
